

## Learn the rules, then break them

Jonathan Clucas, Headteacher,  
Layton Primary School, Blackpool

Achieved outstanding October 2017

---

**Learn the rules....then break them**

Layton Primary School

Tighten to be good....loosen to move to outstanding

Jonathan Clucas

Head teacher

Layton Primary school

# LAYTON PRIMARY SCHOOL

Most deprived large seaside town in UK

32% children live in low  
income families.

One of the 20% most deprived  
districts in England.

Ofsted ranking 2011

‘Requires improvement’

Ranked in the bottom

42%

# A visionless environment.....

# Pupils Learning Together

Sit on the carpet and  
listen quietly.

A photograph of two young students, a girl and a boy, sitting at a desk in a classroom. The girl, on the left, has blonde hair in a ponytail and wears glasses and a blue school uniform. The boy, on the right, has brown hair and freckles and wears a light blue polo shirt. They are both looking intently at a tablet computer held by the boy. The background shows a classroom wall decorated with colorful stars and educational posters. The text "Growing Great Minds Together" is overlaid in white across the center of the image.

Growing Great Minds Together

**Vision:** So far removed from where we currently were in 2012

What makes the biggest difference?

Whose research fits the vision....and  
what is the quality of that research?

How do we change culture?

# What makes the biggest difference?

Learning and teaching

Decision making....who makes them and  
when...?

On which basis do you chose your research...?

Beware of those who profess to have the  
answers....avoid snake oil

Challenge      Support      Empower

# Vision

A philosophy, not a statement

Start with why.....

Love questions far more than answers....a  
good question should never be wasted

When to move from... we need to.....to what  
do we want to achieve and why?

Live it, don't laminate it....a philosophy for all?

Spread through each and every  
conversation...from the start

What you do not challenge, you accept...

# The biggest difference?

What makes the biggest difference to standards in leadership?

Vision

Growth mindset...what does it mean in practice?

How do we increase capacity to spread the best expertise?

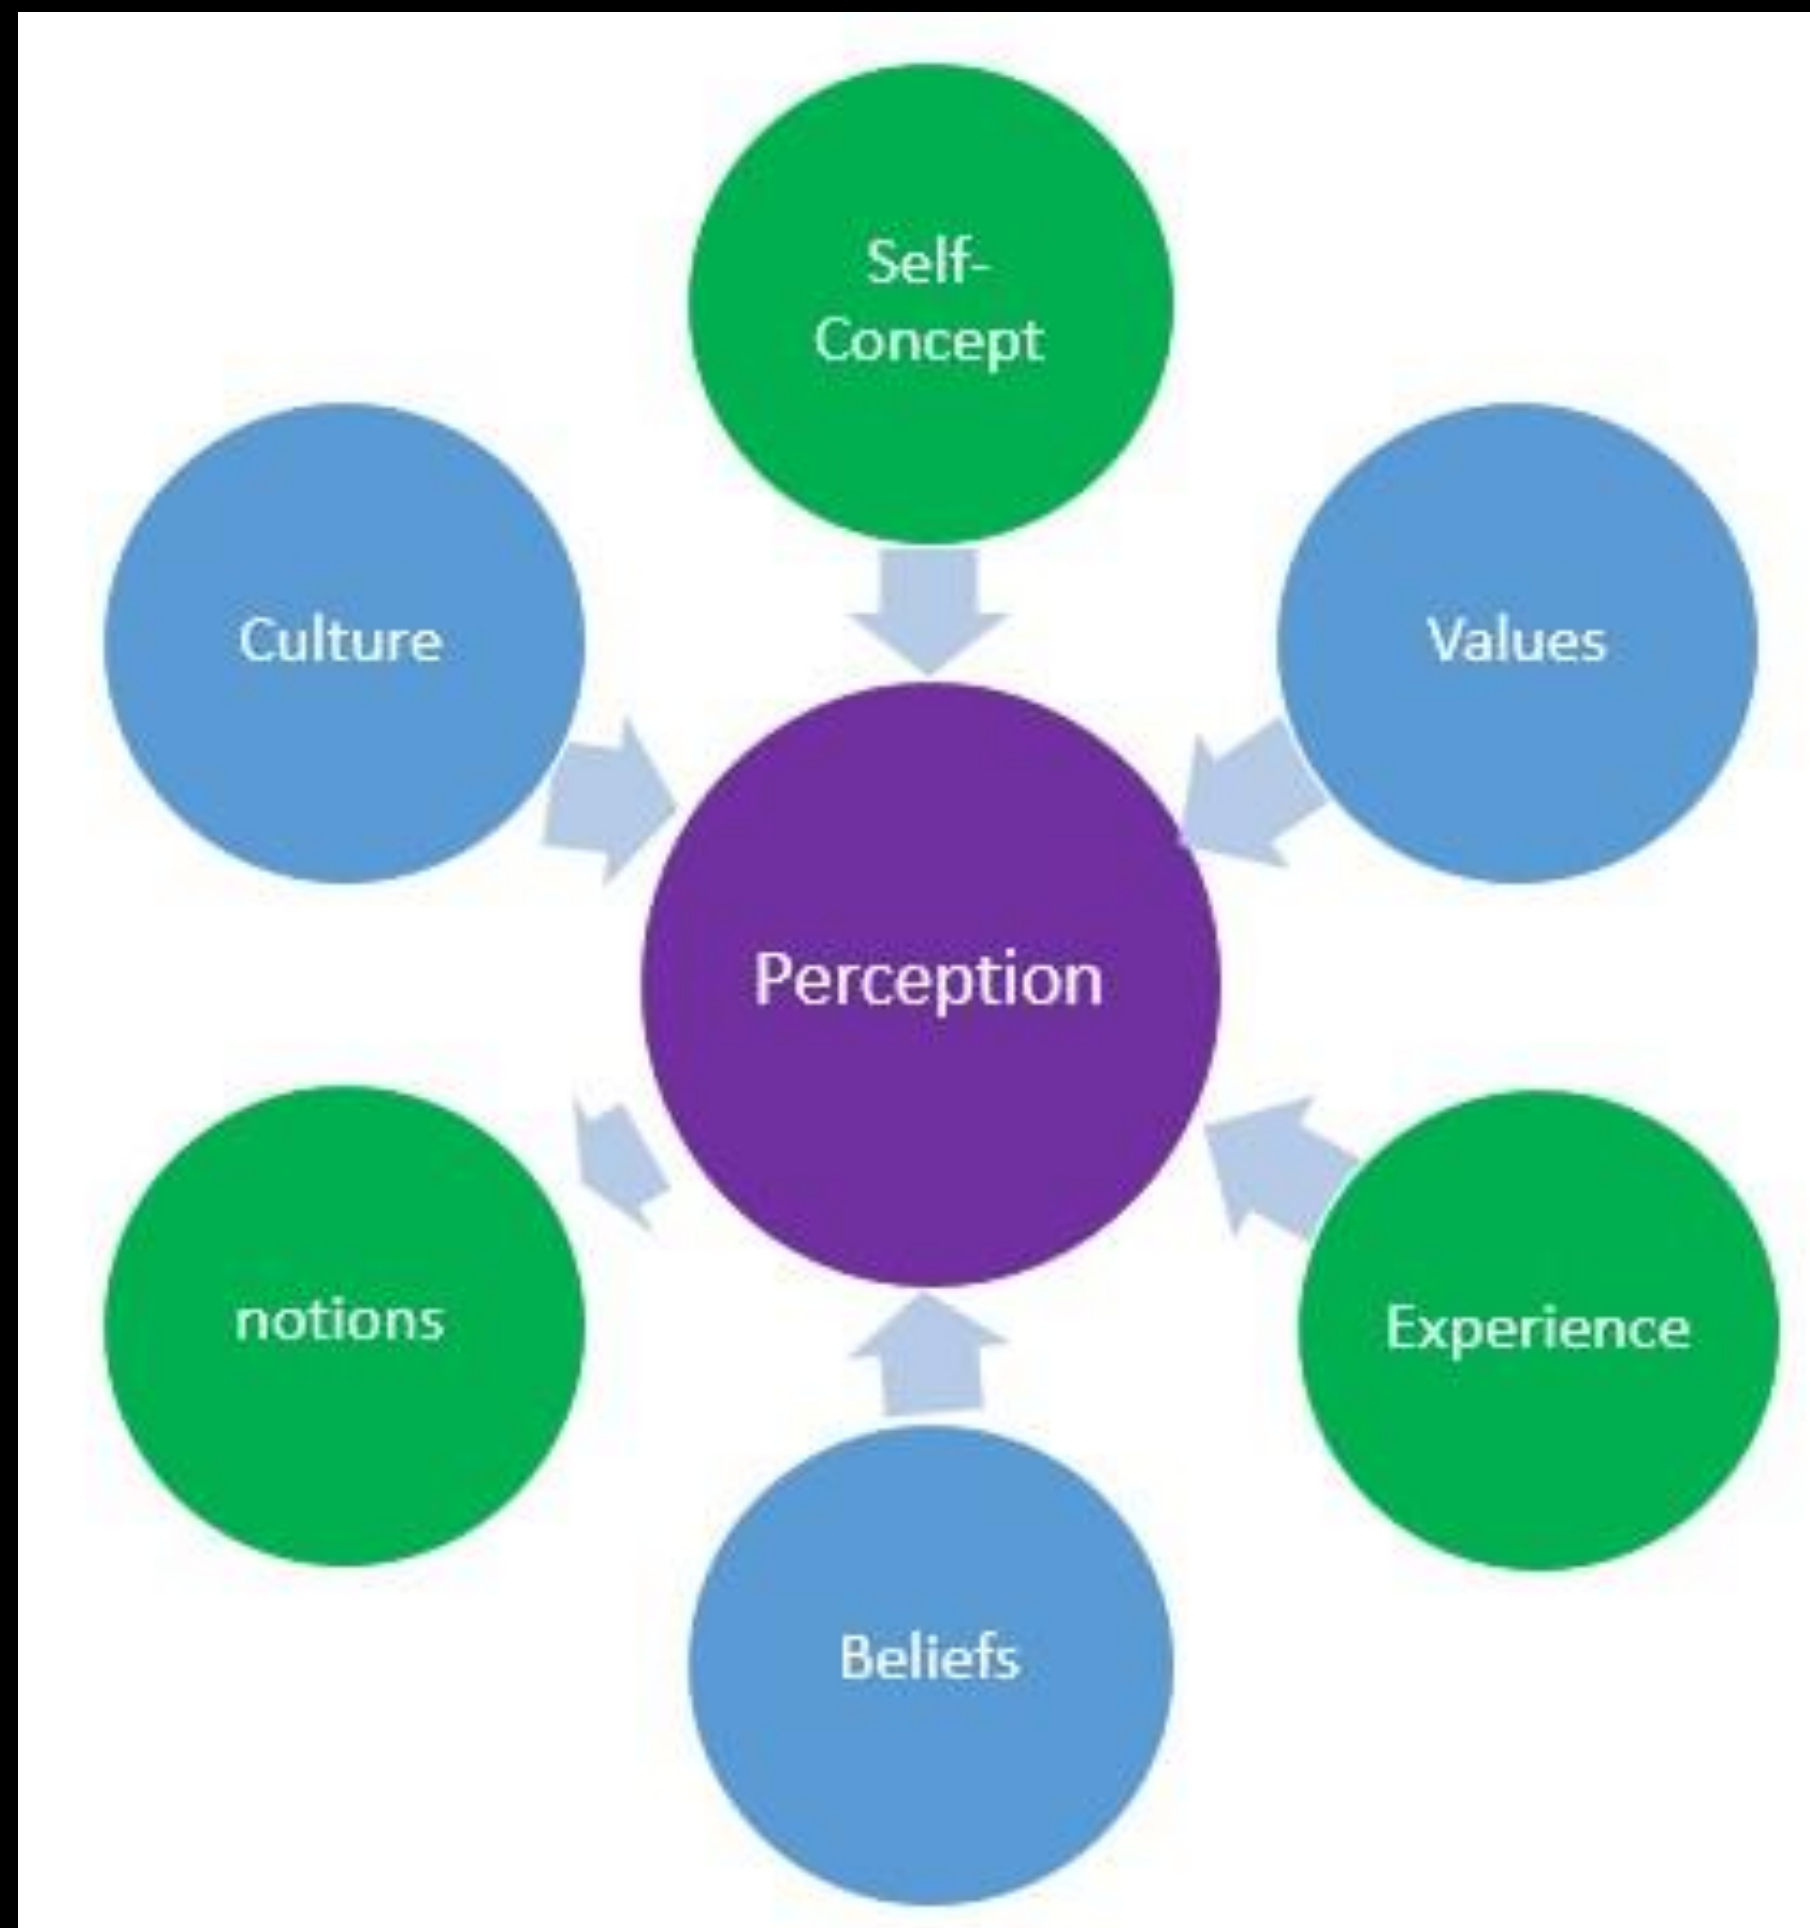

When do you calibrate bullets and cannonballs?

Less equals more...monitoring - judgemental or developmental

Three things to work on relentlessly....what is taught....how it's taught...models of excellence

but.....beware the perception gap...

# Implement, tweak, repeat

## Growth Mindset

How do you move from...compliance culture  
to....nobody has cracked it?

Leadership led or leadership facilitated?

Curriculum diktat or curriculum guidance?

Models of teaching or models of learning?

Direction and compliance or guidance and  
models of excellence?

# Tighten

# Loosen

Separating monitoring and evaluation

What are we looking for?

Why are we looking for it?

What do we wish to change?

How do we monitor that change?

What impact do we want?

What learning gains do we want to see?

How do we draw conclusions?

Which evidence shall we use?

How will we monitor the impact on teacher's growth?

How will we share conclusions?

Evaluate success and failure without blame...follow up with questions!

# How you monitor will not change all that much.....how you evaluate will

However...

You will still.....

Visit classrooms

Scrutinise work

Converse with pupils

Examine summative assessment

Hold pupils progress/evaluative meetings

More developmental work

Collaborate with others

Develop shared analysis

Hold staff responsible for own development and mindset

Ensure visions are communicated

Keep asking questions

Develop teacher's decision making..

# Vision for culture...CPD and learning for all...

# Define your learning culture for all....

Slim down..  
Encourage  
thinking above  
compliance  
Provide  
feedback  
which  
provokes  
thought  
Question  
more...

**And the impact.....?**

# A visionless environment.....

# Vision for learning...define it! Teaching will follow

# 18 iLeaders All Apple Teachers

**Learning Is Not Confined  
to Classrooms**

It's great to see how other schools, and key stages, are using coding in the classrooms! It's so simple and extremely relevant to the 21st century. Need to get my year three to think about when/where we use coding in the real world!

[@AliceNutt1](#)

This is right up the street of my class! Maths AND @GaragebandiOS in one! Fab idea that I'll definitely be trying @AppleEDU

[@OliviaDomics](#)

I wish our local Apple Store was closer so I could attend these sessions! Maybe we could go in place of a staff meeting @SLT\_Layton?

[@MissJBunce](#)

Graph to show percentile rank of Layton Primary School

**This is an outstanding school**

- Layton lives up to its school motto, 'Growing great minds together' in everything it does.
- The exceptional leadership of the headteacher and the staff team has created a climate of high expectations, a love of learning and an insistence on the very best for every pupil.
- Governors are committed and knowledgeable. They support and challenge the headteacher effectively and make a valuable contribution to the ongoing development of the school.
- Outcomes for all pupils, at all levels, are exceptional. All groups of pupils make outstanding progress in reading, writing and mathematics to reach standards that are well above average by the time they leave key stage 2.
- At the core of its success is the resolute view that the highest quality of teaching and learning 'must run through the school like a piece of Blackpool rock'.
- The innovative approach to the professional development of staff has enabled them to grow quickly into highly-skilled practitioners who share a passion for learning.
- The precise tracking of pupils' progress in reading, writing and mathematics means that leaders and teachers have a detailed understanding of how well pupils are doing. This overview and understanding is less well developed for other subjects.
- The state-of-the-art and wide-ranging use of information and communication technology has a significant impact on pupils' successful learning and enjoyment.
- Teachers' ability to ask the right questions to support pupils to develop their thinking, and move them on in their learning, results in outstanding teaching and learning over time.
- Pupils' personal development, welfare and behaviour is outstanding. Pupils conduct themselves extremely well around school. Their attitudes to learning in lessons are very positive and many play an important part in supporting their own and others' learning.
- Leaders are diligent in carrying out their duties for safeguarding. As a result, pupils say that they feel safe in school. Their welfare needs are well met.
- The provision for early years is outstanding. High-quality leadership and teaching create a stimulating learning environment and ensure that children have the best possible start to school life.
- Some parents feel communication about their child's learning is not as strong as it could be.
- Although leaders prepare pupils to move to secondary school well, still more could be done.

**don't deviate from the path**

**you will lose if you**

**do your own thing**

**make sure you**

**chose the sensible option**

**It's not always right to**

# Important of contact

In education, “what works?” is not the right question because everything works somewhere and nothing works everywhere.

So what’s interesting, what’s important in education is:  
“Under what conditions does this work?”

Dylan William
